Jun 2017 - Mar 2018

SKILLS SUMMARY

- **Languages** Python, SQL
- **Web Technology** HTML, CSS, JavaScript, Bootstraps
- **Framework** Django, Numpy, Pandas
- **Tools** Excel, Powerpoint, Word ,GitHub
- **Platforms** Visual Studio Code, PyCharm, Jupyter Notebook
- **Soft Skills** Problem-Solving, Teamwork and Collaboration, Time Management

PROJECTS

Design an Advanced Virtual Painter through Webcam using AI and Opencv Feb 2024 - May 2024

- The project aims to develop a real time virtual painting system using hand gestures detected by a webcam, without any additional hardware requirement. It is an interactive way to create digital art and can be accessible to everyone.
- This project combines computer vision, AI and real-time image processing to create an engaging and interactive virtual painting experience.
- **Tech stack** : Python, Opencv, numpy, mediapipe

Stock Visualization and Forecasting Dashboard using dash

Dec 2022 - Jan 2023

- Developed an interactive web-based dashboard for stock market data visualization and price forecasting using python's Dash framework. This project involved Data collection, Data Visualization, Forecasting Model, User Interface, Deployment.
- It is used to predict the stock intake and out stock of a particular company like google, Microsoft, apple etc.
- **Tech stack** : Python, Opencv, numpy, mediapipe

CERTIFICATES

Python Fullstack Development | Pysipders Rajajinagar, Bangalore.

June 2024 - Jan 2025

- **Key Skills** : Full-stack web development using python, **front-end (HTML, CSS, JavaScript) back-end (Python/ Django),database management (SQL) and Data Structures & Algorithm**
- **Projects** : Built and deployed a **Portfolio of projects, E-commerce web application, Movie Review and Ticket Booking web Application.**

Diploma in Computer Application [DCA] | Thirupattur-NASA Centre

Apr 2020 - Oct 2020

- **Course Coverage** : C Language, OOPS using C++, HTML ,MS-Windows, MS-Word, MS-Excel, MS-Power Point and Internet.
